The Thrifty Corporate Program and corporate rates include the following benefits: No surcharge for additional drivers; No surcharge for drivers 21-24 years of age; year round validity; no one day or mid week surcharges, and primary third party liability protection. Should the above benefits not be required for a specific rental, viewing “Standard Rates” is always available to the traveller on-line or to the designated travel agent, which may offer a reduced or special rate per vehicle class for the intended city. There may be times when these rates are lower than Thrifty Corporate Customer member rates due to special promotions. However these rates do not include the above benefits.
